

prepaid tariff guide

easychat

choice, choice & more choice:

One tariff doesn't fit all. That's why you get to choose how you chat. With **easychat**, there are 3 tariff options. Choose whichever best suits your lifestyle because it's your life, your time and let's face it – it's your money.

easychat per second

This is the best value-for-money tariff that lets you chat for just a few seconds and pay only for what you use. Your calls are charged by the second from the very first second. Plus we offer you a low off-peak SMS rate.

easychat standard

Do you make your calls during both the busy peak and the quieter off-peak periods? Then this is the tariff for you. You get great call rates and your calls are charged per second after the first 60 seconds!

easychat all day

If you make most of your calls during the day, then this is the best tariff for you. You pay one flat rate no matter what time you call. Plus, your calls get charged by the second after the first 60 seconds. And we offer the lowest standard peak SMS rate.

hola 7[®]

If making a difference is important, then this is the starter pack for you. The **hola 7[®]** starter pack allows you to give back to the community by donating a portion of all revenue generated from the calls you make. You can also join the **hola 7[®]** membership club by calling **084 ZOLA 777 (084 9652 777)** to get access to exclusive competitions and other benefits.

MMS

Cell C's unique MMS enables you to express exactly what you're thinking by simply picking up your cellphone - tell someone with a picture, an audio or video recording, photos, music and unlimited text. (An MMS costs R1.00 and is limited to 300KB.)

'call me back'

Free 'call me back' service across all mobile networks. With Cell C's amazing trans-network 'call me back' service. It's free, it's convenient, it's simple and you can use it 7 times a day!

this is how prepaid calls are charged for:

easychat and hola 7[®] call rates
