

Choose a tariff
to suit your lifestyle

easychat | prepaid

choice, choice & more choice:

One tariff doesn't fit all. That's why you get to choose how you chat. During the day? During the evening and weekends? With **easychat**, there are 3 tariff options for you to choose from every day. Choose whichever best suits your lifestyle because it's your life, your time and let's face it – it's your money.

easychat per second

This is the best value-for-money tariff that let's you chat for just a few seconds and pay only for what you use. Fantastic value if most of your calls are made at night or on the weekends. Your calls are charged by the second from the very first second. If you don't use then you won't lose! Plus we offer you a low off-peak SMS rate.

easychat standard

Do you make your calls during both the busy peak as well as the quieter off-peak periods? Then this is the tariff for you. On **easychat** standard, you get great call rates, and your calls are charged per second after the first 60 seconds!

easychat all day

If you make most of your calls during the day, then this is the best tariff for you. You pay one flat rate no matter what time you call. Plus, your calls get charged by the second after the first 60 seconds, so you are always saving money – even during the day! And we offer the lowest standard peak SMS rate.

hola 7[®]

If making a difference is important, then this is the starter pack for you. The **hola 7[®]** starter pack allows you to give back to the community by donating a portion of all revenue generated from the calls you make. You can also join the **hola 7[®]** membership club by calling **084 ZOLA 777 (084 9652 777)**.

this is how **easychat** calls are charged for:

controlchat valuechat casualchat activechat businesschat | contract

Giving you all the choice you need, Cell C's contract options are designed with the flexibility and convenience to suit your lifestyle, at affordable prices. You can choose between controlchat, valuechat, casualchat, activechat and businesschat options.

controlchat

Do you need a no-frills cellular contract with great value and absolute control? Our control**chat** offering has been created around your needs - designed especially for you. You get a set amount of airtime value, depending on your chosen package, plus free SMSs per month. Did we mention that a subsidised cellphone will be provided on 12 and 24 month control**chat** packages? Yes, so sit back, relax and enjoy the convenience of control. You also get the choice of 3 tariff options (per second, standard or all day) choose whichever best suits your lifestyle. When your airtime runs out simply top up with a recharge voucher.

value roll over

You can accumulate a maximum balance equal to 3 times your contract amount. **Note:** this excludes any recharges done by yourself. Unused SMSs will not roll over to the next month.

MMS

Cell C's unique MMS enables you to express exactly what you're thinking by simply picking up your cellphone - tell someone with a picture, an audio or video recording, photos, music and unlimited text. MMS (Multimedia Messaging Service) is basically SMS on steroids, and even Cell C customers that do not own an MMS-capable cellphone can experience MMS - through the Cell C website. Cell C takes messaging to the next level. (A MMS costs R1.00 and is limited to 300KB).

call me back

Free 'call me back' service across all mobile networks. With Cell C's amazing trans-network 'call me back' service. It's free, it's convenient, it's simple and you can use it 7 times a day!
